- ✓ And more!

**LEARN MORE  
ABOUT THIS  
PRODUCT**

Our Universal Screw™ - now available in black - is a code-compliant, self-tapping, countersink fastener designed for a clean, flush finish. The head sits level with or below the surface, allowing other objects to rest securely on top. Its countersunk design ensures excellent centering and a sleek, professional look - now with the added option of a black finish for a modern, low-profile appearance.

## KEY FEATURES

### Burrow Pockets

- ▶ Dynamically engineered to help countersink into the toughest of materials.

### Tight Star Recess System

- ▶ Allows for one-handed installation.
- ▶ Grasps the U-Bit tightly for a secure fit.
- ▶ Ensures a wobble-free experience and optimal force transmission.

### Innovative Tapper Point

- ▶ Consists of a Cork Screw Start, L-Cut outs, Angled Cut, and Blade Cutting Thread.
- ▶ Enables easy piercing and alleviates strain on the material during installation.

### Reamer Thread

- ▶ Enlarges the hole to create a passage when drawing materials together and reduces tension for the screw head.

## AVAILABLE SIZES

- ▶ Available in 10 x 2½" and 10 x 3½".

## MATERIAL COMPOSITION

Black coating for heavy duty ground contact.

Structural & ACQ treated lumber code compliant. In report ER-454.
