Crown & Bit

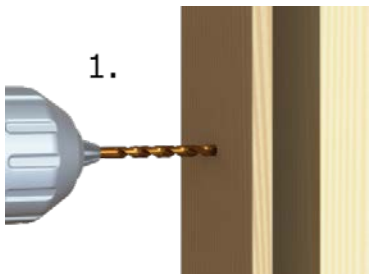

Crown
& Bit when
assembled

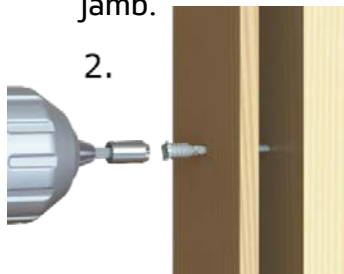

The adjustable screw replaces shimming and can make door hanging a one-person job.

Easy 4-Step Wood-to-Wood Installation

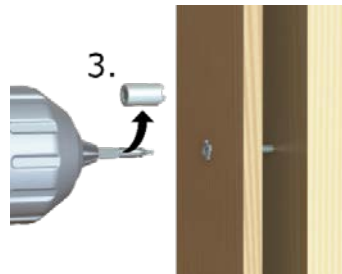

1. Predrill window frame or door jamb (only) with 5/16" drill bit.

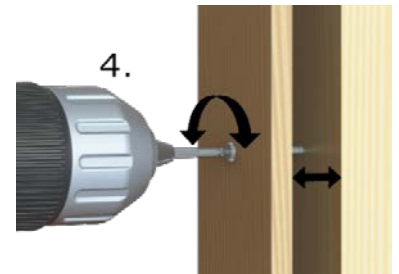

2. Engage the crown bit into TopStarTM screw head and drive flush to surface of frame or jamb.

3. For adjustments remove crown from bit.

4. Engage bit into center hole of TopStarTM screw head and adjust to your requirements.
